# Hot Water Circulation Pump VP40M

## Application

Heat water circulation. Solar water heater circulation and booster. Circulating systems for homes. Air-source water heater. Dther machine hot water circulation etc.

### Feature

Can endure 105°C high temperature. Over temperature and over voltage protection. Stall protection ,over current protection. ₩WM/0~5V speed control function [optional]. Digital thermostatic gas water heater booster pump. EMC compatibility test passed, no harassment signal . FG signal.

**Specification** 

#### Parameter

#### Parameter (only for reference, it can be customized) Voltage Rated Current Max flow Max head Power Model L/MIN W V А Μ 12 0.75 3.5 9 7 0.75 12 7 35 9 VP40M 1.4 12 33 24 8 24 1.4 12 33 8 The parameters above are for reference only, the one Remarks based on the customer's endorsement demands shall Mesmallwa NWWN YOV prevail! 10 Notice Runs in the condition of the pump chamber without liquid is not

allowed.

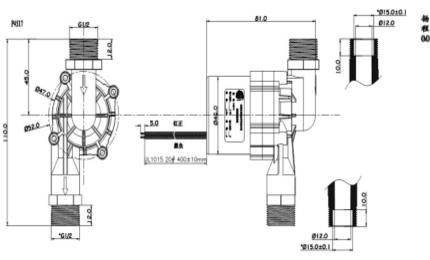

Reversely connects the power polarity is not allowed.

Filter measures should be taken when used in foul water environment.

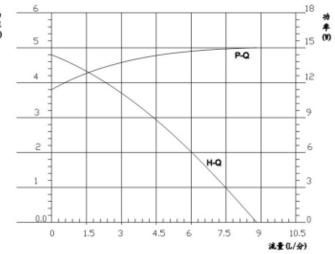

Runs in the acid and alkali environment is not allowed. Ambient temperature and fluid temperature should be within

the rated temperature.
